

April 14, 2009

To Whom It May Concern,

Systems Painters & Drywall is a highly qualified, high quality and trusted commercial construction contractor that has completed numerous projects for Western Builders of Amarillo, Inc. We have entrusted them to participate in the construction of projects totaling millions of dollars over the last 15 years. Systems Painters & Drywall is a "TEAM" player with professional management – both in the office and in the field. Our projects are consistently under budget and on time due to subcontractors such as Systems Painters & Drywall.

Our experience with Systems Painters & Drywall has shown they are a company with the highest standards of integrity, technical knowledge and production capabilities. In fact, based on the aforementioned statements, we contracted Systems Painters & Drywall to perform a \$2.4 million contract for the installation of metal framing, drywall, insulation, ceilings and painting for a retirement community in Tyler, TX

In summation, I would recommend Systems Painters & Drywall for any project, to anyone looking for exceptional service and value for their clients.

Sincerely,
